

# Research Poster

## Ecovillage Boekel

A research by: Nikita Andrianov, Luuk Geraats, Nguyen, Kate Popova, Aleksander Sopiqoti, Danial Zarei, and Taurius Antanevičius

### 4 QUALITY EDUCATION

### 6 CLEAN WATER AND SANITATION

### 7 AFFORDABLE AND CLEAN ENERGY

### 11 SUSTAINABLE CITIES AND COMMUNITIES

### 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Tool used for this data analysis and visuals:

Datasets/sources used for data analysis and research.

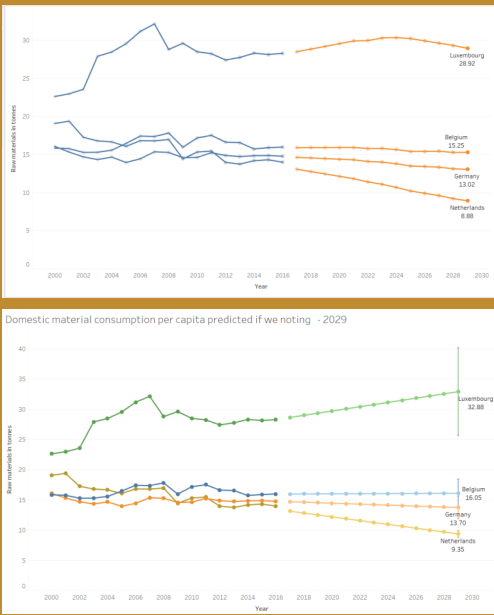

<https://sdg-tracker.org/sustainable-consumption-production>  
<https://www.eea.europa.eu/data-and-maps/indicators/waste-recycling-1/assessment-1>  
<https://dm.pwc.com/SDGSelector/Resources/12.pdf>  
<https://www.un.org/en/actnow/>  
<https://sdgcompass.org/sdgs/sdg-12/>

For this Sustainable Development goal the following targets where researched:

Target 12.2: Sustainable management and use of natural resources  
Target 12.5: Substantially reduce waste generation

These targets where chosen because they are the most 'easy' to do something about as a citizen.

Data from Germany, Luxembourg, Belgium and the Netherlands regarding recycling rates and domestic consumption where analyzed.

**34%**  
**43.6%**

Only 34% of all our yearly waste will be recycled in 2030 is we change nothing...

Yearly 43.6% of our waste will be recycled in 2030 is we change some...

What can people change in their behavior to reach the 43.6% yearly recycle rate:

- Use <https://www.recyclenow.com/> to check which household products you can easily recycle, how to recycle and where to recycle.
- Be creative! Find a new purpose for your (plastic) waste. [This](#) website can be used as inspiration!
- Separate your waste! Companies who gather your waste can now easilier recycle your paper, plastic and bulky waste! They will take care of the recycling, you only have to separate!

### 13 CLIMATE ACTION

### 15 LIFE ON LAND
